CONTENTS

1	Contents	3
1.1	STRATEGY	3
1.2	BLOG	3

AltcoinTrading.NET is a blog and trading resource for the crypto markets. It's aim is to provide valuable information, which is why we reserve the final edit of *all content*.

This documents gives general idea about the content we want to publish in different sections, and some examples.

Note: This document is meant for our content collaborators at [AltcoinTrading.NET](#)

CONTENTS

1.1 STRATEGY

- long-form: 2000+ words
- real data (tables, csv, excel, formula)

In trading strategy, it is ok if the explanations and data descriptions get a little prosy. If the content gets *very* long, we may post the explainer part on Medium.

1.2 BLOG

- at least 600-1000 words
- 1 internal link to a relevant content on AltcoinTrading.NET
- 1-2 links to high-trust resources

Resources can be news sites like FT or Economist, but also ideas on Tradingview as long as they have social proof.

A list form, such as a list of products, is acceptable only as long as the topic is a novelty.

- list-style: <https://www.altcointrading.net/nft-marketplaces-open-closed-invite-code-fees/>
- a deep dive: <https://www.altcointrading.net/scriptspotlight-volume-profile-trading-fixed-visible-range/>
